Horlogerie

LEDERER

A NEW CHAPTER BEGINS

Becoming a member of the Fondation de la Haute Horlogerie (FHH) marks a defining moment in the history of LEDERER. It is a recognition that transcends prestige, a moment that encapsulates 40 years of passion, perseverance, and an unwavering commitment to authentic, independent watchmaking.

Becoming the first member of the AHCI (Académie Horlogère des Créateurs Indépendants) to join the FHH symbolizes a union between bold creative spirit and institutional excellence.

“We are proud to welcome LEDERER as a new partner brand, an independent house that embodies the very essence of Haute Horlogerie”

– Pascal RAVESSOUD,
Vice President, Fondation Haute Horlogerie

A RECOGNITION OF VISION AND INTEGRITY

This recognition by the FHH is more than an honor; it is a shared affirmation of values and a testament to our dedication to authentic, independent watchmaking.

As the FHH celebrates its 20th anniversary, this moment resonates even more deeply, marking not just a personal milestone for LEDERER, but a shared celebration of two decades dedicated to preserving, promoting, and advancing the art of fine watchmaking.

“Joining the Fondation de la Haute Horlogerie is more than recognition; it’s a convergence of dreams and dedication.”

– Bernhard LEDERER

Together, we look forward to continuing this journey, inspiring, educating, and sharing the beauty of mechanical artistry with the world. We invite our community to join us in writing this new chapter, one that transcends hours and minutes and celebrates dreams, passion, and the enduring spirit of horological excellence.

“As an independent watchmaker and one of the earliest members of the AHCI, I have always believed that true horology lives at the intersection of tradition and bold reinvention.

Becoming the first AHCI member to join the FHH represents a bridge between independence and shared heritage, an invitation to continue crafting time not just as an instrument, but as an emotion to be cherished and passed on.”

– Bernhard LEDERER

MASTERING TIME, CRAFTING LEGACY

At LEDERER, we don't just measure time, we reveal its true nature.

For over 40 years, Bernhard Lederer has dedicated himself to mastering the heart of watchmaking: the escapement. This complex and poetic component transforms mechanics into art and expresses the philosophy of time in every silent beat.

Our philosophy is rooted in the pursuit of mechanical advancement, guided by integrity and respect for tradition. We challenge conventions not to impress but to redefine what is possible, returning always to fundamentals to uncover hidden beauty.

Each creation embodies patience and technical mastery, handcrafted in our independent manufacture in Saint-Blaise. With 98% of each movement produced in-house, we maintain complete creative autonomy and ensure uncompromising precision and vision.

We stand apart through revolutionary mechanical innovation. From the Central Impulse Chronometer to our double constant-force mechanisms, each breakthrough represents a profound rethinking of chronometry.

At LEDERER, we create timepieces for those who desire to carry a piece of horological history, a living story of passion and ingenuity.

THE FHH AND LEDERER: A SHARED MISSION

The Fondation de la Haute Horlogerie is dedicated to preserving and advancing the culture, values, and know-how of fine watchmaking. As the FHH celebrates its 20th anniversary, LEDERER is honored to contribute to this mission bringing the perspective of independent mastery to a shared platform of excellence.

For decades, we have believed that true horology is defined by substance, integrity, and the courage to explore beyond convention. By joining the FHH, we unite this spirit of independence with a collective commitment to preserve watchmaking as a cultural heritage and living art.

As the first AHCI member to become part of the FHH, LEDERER symbolizes a bridge between individual creative freedom and shared responsibility. This partnership is not about recognition, but about contributing to a broader narrative, inspiring future generations, transmitting savoir-faire, and proving that mechanical watchmaking remains a powerful expression of human ingenuity.

Our timepieces are echoes of time shaped by human hands; they are cultural ambassadors, each carrying a story that connects generations. Our mission is to keep this flame alive, to honor the past while illuminating the future, and to celebrate time as one of humanity's most profound artistic and intellectual achievements.

CRAFTING TOMORROW, HONORING THE PAST

In a digital world, it is our duty to ensure that the intimate beauty of traditional horology endures, touching hearts and inspiring minds far beyond the workshop walls.

LEDERER remains anchored in the essential: the art of creating with meaning. Each timepiece is not just a marvel of engineering, but a story, an emotion, a legacy.

By joining the FHH, LEDERER strengthens its role not only as a watchmaker, but as a guardian of horological culture, contributing to a future where excellence, patience, and craftsmanship continue to inspire.

CELEBRATING ALMOST 40 YEARS OF INDEPENDENT EXCELLENCE

LEDERER

«Bernhard Lederer's dedication to innovation, precision, and independent excellence meets the standards of Haute Horlogerie. He's the first independent watchmaker from the AHCI to join the FHH, representing a bridge between bold creative freedom and the institutional excellence. His work unites mechanical audacity with timeless elegance, perfectly echoing FHH's mission to preserve and promote watchmaking culture as a living heritage.»

– Pascal RAVESSOUD,

Vice President, Fondation Haute Horlogerie
